

Dear friends

As you know - the security at the Israeli airports is always strict.

Attached is an **Israeli security authorization**, which means that you have already been checked by the system.

You should show it to the first security person who approaches you (already in the line for the security check of EL-AL or another company traveling to Israel). You should say that you are a:

**SECURITY CENTER PASSENGER**

They will see your name in their system and will help you get through fast and easy (you may still be asked further questions by the Security Authority!).

**You can use your cell phone to show this Israeli security authorization.**

The same procedure with the Israel Security authorization applies to your flight from Eilat, Ovda or Tel-Aviv to your home.

Please remember to take your luggage at Tel Aviv airport – between the international and the domestic flights (there is no direct transfer).

A representative from the OC will be waiting for you at the Eilat Airport.

If you have any problem regarding your travels, please call at any time 24\7: [+972-54-4230300](tel:+972-54-4230300)

Have a nice journey!

Hadar Ben-Dror
